## Tropical Paradise

Sabal Development affiliate 8290 Partners and One Sotheby's International Realty have partnered to build Veridian Grove, a 10.5-acre gated community of 20 custom-designed homes at 8290 SW 120th St. Each home will be built and designed by Sotolongo Salman Henderson Architects and by TOGU and feature details such as white-oak flooring, marble countertops, pool, summer kitchen, cameras, speakers and smart technology. Tropical surroundings and landscapes designed by Deena Bell of Bell Landscape Architecture include native species such as cabada and coconut palms. The community also includes a playground, a digital concierge and a wellness center with a steam room, heated lap pool and aerobics and yoga studio. For more, visit [veridiangrove.com](http://veridiangrove.com).
